🆔 0000-0003-3529-0434
Nationalities: Mexican, Spanish

Research Interests

- Evolutionary computation
 - Evolutionary algorithms
 - Competitive coevolutionary algorithms
 - Runtime analysis
- Blackbox optimisation
- Combinatorial optimisation

Education

- 2019–2022 **PhD Computer Science**, *University of Sheffield, UK.*
Title: *Runtime Analysis of Success-Based Parameter Control Mechanisms for Evolutionary Algorithms on Multimodal Problems*
- 2017–2018 **MSc Data Analytics**, *University of Sheffield, UK, 1st – Distinction.*
Dissertation: *Comparison and modification of self-adjusting evolutionary algorithms*
- 2010–2014 **BSc Mechatronics Engineering**, *Tecnológico de Monterrey, Mexico, Distinction.*
CENEVAL award for the “EGEL–Excellence Performance”
Outstanding participation in the high performance academic group, Principia 2010–2012

Work Experience

- 2022–Present **Research Fellow**, *University of Birmingham, UK.*
Turing AI Acceleration fellowship project on coevolution.
- 2019–2021 **Graduate Teaching Assistant**, *University of Sheffield, UK.*
- 2016–2017 **Field Service Engineer**, *Festo Pneumatic, Mexico.*
Accountable for the commissioning of high complexity projects for key clients (Bimbo, Jumex, Femsa) and coordinator for the commissioning of low and medium complexity projects in the center and south of Mexico.
- Create a standard for programming of Festo PLC and HMI nationwide in accordance with IEC 61131-3.
 - Key participation in the creation of procedures for the commissioning of projects that include programming nationwide.
 - Improved response time of services in the center and south of Mexico.

- 2015–2016 **Project Engineer**, *Festo Pneumatic*, Mexico.
Accountable for the commissioning of low and medium complexity projects in Mexico City, Cuernavaca and Queretaro.
- 2013–2014 **Initiative Operation Leader**, *Procter & Gamble*, Mexico.
Coordinate local project delivery functions and the needed supply chain items to ensure that product changes from HDL (Heavy Duty Liquids) and HDW (Hand Dish Washers) categories produced in Vallejo Plant and Aerobal were delivered to the market as planned.

Awards and Achievements

- 2021 **Best paper award**, *ACM Genetic and Evolutionary Computation Conference (GECCO)*.
Award in the prestigious “Theory” track.
- 07-12/2014 **CENEVAL award for “EGEL–Excellence Performance”**.
Awarded by the National Evaluation Center for Higher Education (CENEVAL) to the graduates who reached the level of excellence (~1% of graduates at national level) in their General Exam for the Graduate Degree (EGEL).
- 2012 **Third place in the 2° Tournament of Minisumo Robots “Bogotron”**.
University wide competition at Tecnológico de Monterrey.
- 2010 **First place in the Robotics Lego Contest**.
Held by the Alumni Society of Mechatronics of Tecnológico de Monterrey.
- 2010 **First place in the XII Mathematics Contest High School Category Federation Phase**.
Held by the Federation of Private Schools of the State of Mexico (FEPEM).

Grants

- 2019–2022 **Doctoral Scholarship from the Department of Computer Science**, *University of Sheffield*, UK.
Full UK/EU tuition fee and maintenance stipend for three years (approximately £60k).
- 2020–2023 **CONACYT Scholarship for Doctorate Studies Abroad 2020**, *CONACYT*, Mexico.
Largest doctorate scholarship offered by CONACYT at the time (approximately £47k).
- 2010–2014 **Scholarship for Undergraduate Studies**, *Tecnológico de Monterrey*, Mexico.

Teaching Experience

- Autumn 20/21 **Tutorials: Advanced Algorithms**, *University of Sheffield*, UK.
- Spring 20/21 **Teaching Assistant: Scalable Machine Learning**, *University of Sheffield*, UK.
- Spring 19/20 **Tutorials: Introduction to Algorithms and Data Structures**, *University of Sheffield*, UK.
- Spring 19/20 **Teaching Assistant: Scalable Machine Learning**, *University of Sheffield*, UK.
- Spring 18/19 **Tutorials: Introduction to Algorithms and Data Structures**, *University of Sheffield*, UK.

2015–2017 **Instructor: Industrial training courses and seminars**, *Festo Pneumatic*, Mexico. Programming PLC, electric drives/motors, 3-dimensional gantries, image processing and network communication.

Spring 2014 **Personal tutor**, *Tecnológico de Monterrey*, Mexico. Provide personal lessons to undergraduate students in mechanical, electrical and electronic engineering.

Professional activities

Organising Committees

UK AI Conference 2023

Invitations to Workshops

Dagstuhl seminar “Theory of Randomized Optimization Heuristics” 2024

Reviewer for Journals

Information Sciences

Theoretical Computer Science

IEEE Transactions on Evolutionary Computation

Program Committee Memberships

Genetic and Evolutionary Computation Conference (GECCO) 2023-2024

Additional Skills

Languages

Spanish	Native	English	Fluent
---------	--------	---------	--------

Programming Skills

Python	Very good knowledge	Ocaml	Good knowledge
Spark (Scala)	Good knowledge	C++	Good knowledge
L ^A T _E X	Good knowledge	R	Good knowledge

Courses and Training

Mgmt.	“Fit for Leading Leaders”	July 2017 at Festo Pneumatic
Sales	“Fit for Change - Module II”	October 2016 at Festo Pneumatic
Sales	“Fit for Change - Module I”	April 2016 at Festo Pneumatic
Mgmt.	“Managing Talent”	November 2015 at University of Michigan
Mgmt.	“Inspiring and Motivating Individuals”	October 2015 at University of Michigan
Teach	“Training the trainers”	March 2015 at Festo Didactic
